# PROFILE

## DULCET ADDS ELEGANCE TO YOUR HOME

In India, Dulcet Brand is one of the fastest growing brand of bathroom fitting industries. We are a well-known brand for producing a wide range of bathroom fitting accessories with the highest quality spare parts. We have a unique collection of bathroom fixtures that exhibits exceptionally smooth functionality as well as a calming aesthetic and feel.

## WHY SHOULD YOU CHOOSE DULCET PRODUCTS OVER OTHERS?

At Dulcet, we ensure that each of our product is manufactured using the best raw material with the most advance technology. Here is a brief idea Why you should choose our products :

- Each and every product is tested for leaks at 10 bar pressure and inspected by our quality control personnel before being released into the market.
- In the foundry melting process of the exterior main body, we use Pure Brass Metal Bars. Our products have exceptional surface finishes because of using the most purified sand for core.
- Each product at Dulcet is designed to provide easy water control and improved strength.

We provide a diverse assortment of items in a variety of models that feature rust-free materials, cutting-edge design, and attractive finishes, among other features. Our product line is so diverse in terms of quality that it is unrivalled. Our product is designed in such a way that it maintains a consistent aesthetic throughout the bathroom. These items have an attractive touch to them, thanks to the best technical expertise and creative ideas.

## Water. we have learnt from every droplet

Refreshing, soothing, invigorating. We're all looking for something different. But Dulcet's exceptional standards always stay the same. Each component's is engineered to last. From the first drop, to the last your Dulcet's experience will be perfect year after year.

### HIGHER DURABILITY

Nothing surely lasts forever, but that shouldn't stop brands from creating high-quality products to fulfill customer expectations. That's why Dulcet considers the development of energy and water-saving technologies essential in creating the faucets of tomorrow.

### HIGHER LONGEVITY

Looking at the historical development over the last 40 years, there has been an increasing concern with the environmental impact of economic activities where the durability, efficiency and sustainability of products play a major role. We make sure the same with testing our

### ADVANCED WATER SAVING FLOW REGULATOR

Dulcet cartridges are 3.5 lacs cycle tested to give a longer & trouble-free operating life Wide angle of lever provides ultra comfort and flawless, smooth operation Our cartridge spindle is made of brass instead of plastic, to avoid breakage Works smoothly even at high temperatures (85 degrees) & various pressure conditions (0.5 -5 bar)

### SHINING PLATING TECHNOLOGY

Upper shiny protection layer provides a mirror finish to every tap High plating thickness (Nickel: 10 microns and Chrome: 0.3 microns) provides tolerance to extreme climate and water conditions 450+ hours of salt spray test makes our finishes durable and corrosion resistant.

### SOFT WATER FLOW

Water saving aerators allow for water flow rate reduction from 2.2 to 1.5, or as little as 0.5 gallons of water per minute. The technology is such that air is mixed with the water to create a steady stream of water, and a barely noticeable change in water pressure.

### OPERATES SMOOTHLY

Create best quality products with beautiful looks that open and close softly and effortlessly. Dulcet guaranteed for the lifetime of your bath fittings.
