ENLIVEN YOUR LIFE

WEL COME TO NEW JOURNEY OF

FAUCET

COMPANY

PROFILE

DULCET ADDS ELEGANCE TO YOUR HOME

In India, Dulcet Brand is one of the most popular brand of bathroom fittings. We are a well-known brand for producing a wide range of bathroom fitting accessories with the highest quality spare parts. We have a unique collection of bathroom fixtures that exhibits exceptionally smooth functionality as well as a calming aesthetic and feel.

WHY SHOULD YOU CHOOSE DULCET PRODUCTS OVER OTHERS?

At Dulcet, we ensure that each of our product is manufactured using the best and most advance techniques. Here is a brief idea of what you can expect when you choose our products :

- Each and every product is tested for leaks at 100 bar pressure and then qualified by our quality control personnel before being released into the market.
- In the foundry melting process of the exterior main body, we use Pure Brass Metal Bars. Our products have exceptional surface finishes.
- Our product has been tested and qualified in a salt spray test with chrome plating for up to 96 hours. Each product at Dulcet is designed to provide easy water control and improved strength.

We provide a diverse assortment of items in a variety of models that feature rust-free materials, cutting-edge design, and attractive finishes, among other features. Our product line is so diverse in terms of quality that it is unrivalled. Our product is designed in such a way that it maintains a consistent aesthetic throughout the bathroom. These items have an attractive touch to them, thanks to the best technical expertise and creative ideas.

EACH PRODUCT

QUALITY

Inspiration that complements

From Piece of Metal to Finish product our carefully crafted products are the perfect partner for just above any home, with aesthetic qualities that will add value to your investment for years to come.

It's been 09 Years since we launched the first edition of Dulcet Faucet range and in that time so much has changed in terms of the fast paced world we find ourselves in now. we are proud to look back on the past and see how we have adapted our products design to keep up with these changes. we have manage to create what is undoubtedly stylish and quality bath fitting product range in India and by combining floor drain, Alid, Shower, Shower Arms we have reached a huge target audience, which is recognized by our thousands of loyal customers that advertise and promote themselves every year.

This coming year we will be making some necessary and relevant changes to the buyers by revamping and modernizing our product categories and reformatting the looks to make it more relevant for future.

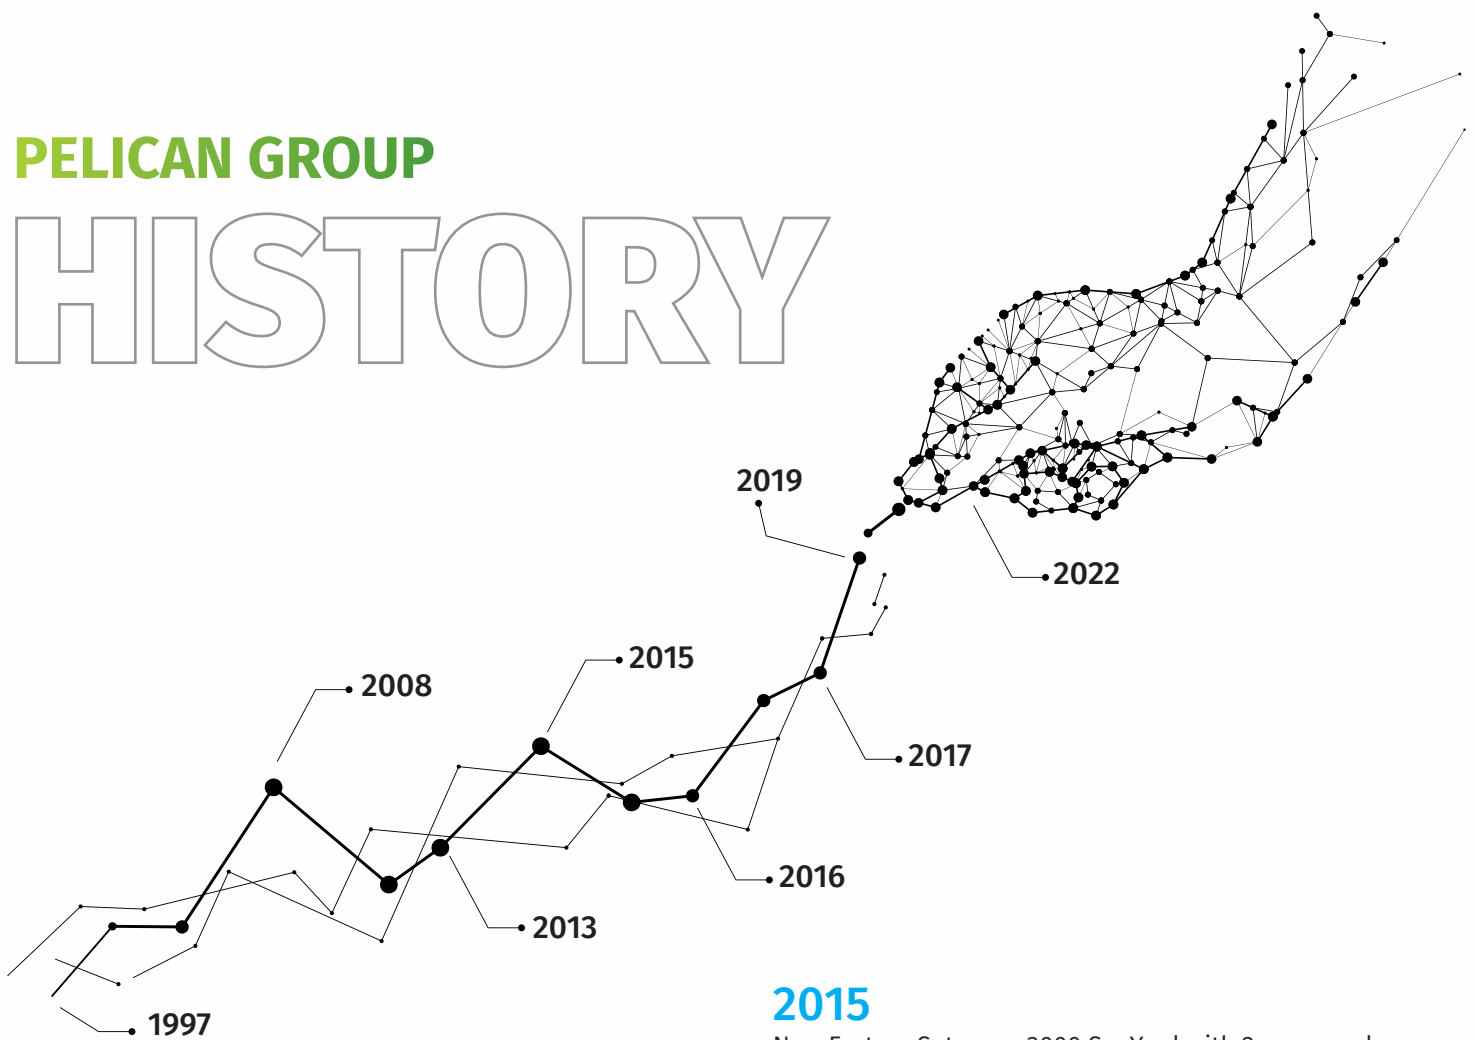

DESIGN

Our Product Design team constantly working to solve series of design challenges, solving them to create original works and achieve bold, innovative designs. This goes beyond the mundane, it's about creating pieces that make a statement, while at the same time serve a purpose.

Five Designer working with each other using gobble data, references materials and design aesthetic rules to create innovative design while working to a brief. It's a show filled to the brim with inspirational ideas and clever thing to get those creative juices flowing.

PELICAN GROUP

HISTORY

1997

The Pelican Group has been came into business with Pelican Auto Spares specializing several engineering operation.

2008

Start own manufacturing bathware fittings unit.

2013

Develop more then 7 Product Series with 150+ SKUs and Launch Dulcet Brand.

2015

New Factory Setup on 3000 Sq. Yard with 2x reserved space for Future expansion capacity.

2016

Launch 3 More 7 Product Series with 250+ SKUs

2017

Spindle Unit launch to meet quality Spindle requirements.

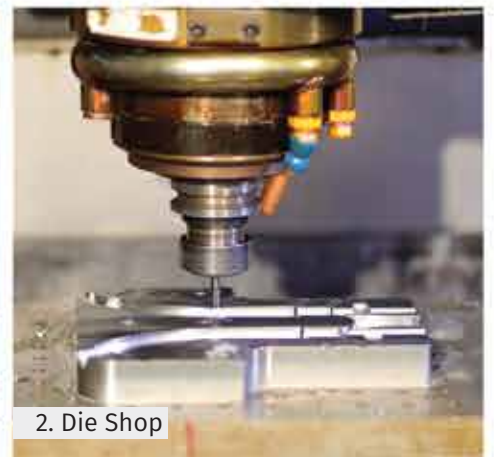

2019

Polylam Laminate unite launch with 120 unique laminate design.

PRODUCTION

PROFILE

The ultimate test of any particular structured way of dealing with a subject is its usefulness. Does it add value? Does it lead to decisions and actions that contribute to achieving objectives? Our workshop emphasized the importance of focusing on the entire manufacturing system. In translating these areas into future actions, it will be necessary to understand the overlaps to avoid duplication of activities and to address the omission of topics of major importance. An effective way to accomplish this is to integrate all the elements back together. The results of this integration can effectively be depicted schematically. That is, program activity can be graphically displayed on a timeline such that relations of activities to one another and to desired goals are explicitly identified.

Dulcet Team

DULCET ORIGINAL
TECHNOLOGY

SOFT WATER FLOW

Water saving aerators allow for water flow rate reduction from 2.2 to 1.5, or as little as 0.5 gallons of water per minute. The technology is such that air is mixed with the water to create a steady stream of water, and a barely noticeable change in water pressure.

OPERATES SMOOTHLY

Create best quality products with beautiful looks that open and close softly and effortlessly. Dulcet guaranteed for the lifetime of your bath fittings.

Water. we've learnt from every droplet.

HIGHER DURABILITY

Nothing surely lasts forever, but that shouldn't stop brands from creating high-quality products to fulfill customer expectations. That's why Dulcet considers the development of energy and water-saving technologies essential in creating the faucets of tomorrow.

ADVANCED WATER SAVING FLOW REGULATOR

Dulcet cartridges are 3.5 mn cycle tested to give a longer & trouble-free operating life Wide angle of lever provides ultra comfort and flawless, smooth operation Our cartridge spindle is made of brass instead of plastic, to avoid breakage Works smoothly even at high temperatures (85 degrees) & various pressure conditions (0.5 -5 bar)

MUTE TECHNOLOGY

To create a quite space, Dulcet tap mute technology effectively slow down the water in the process of release, flow noise, let every open is very wonderful experience with water.

Refreshing, soothing, invigorating. We're all looking for something different. But Dulcet's exceptional standards always stay the same. Each component's is engineered to last. From the first drop, to the last your Dulcet's experience will be perfect year after year.

HIGHER LONGEVITY

Looking at the historical development over the last 40 years, there has been an increasing concern with the environmental impact of economic activities where the durability, efficiency and sustainability of products play a major role. We make sure the same with testing our

SHINNING PLATING TECHNOLOGY

Upper shiny protection layer provides a mirror finish to every tap High plating thickness (Nickel: 10 microns and Chrome: 0.3 microns) provides tolerance to extreme climate and water conditions 450+ hours of salt spray test makes our finishes durable and corrosion resistant.
